1 Name, Scope and Level of the Course
The course is provided by the University of Skövde and is named Mini Conference in Cognitive Neuroscience G1F. It comprises 7.5 credits and is on basic level. The level of progression of the course is G1F.

2 Objectives
After the course the student should be able to:

- utilize scientific databases to find and select relevant scientific publications on a specified topic in cognitive neuroscience,
- prepare slides and a short text, in accordance with APA guidelines for scientific writing, which integrate knowledge from various relevant scientific sources,
- deliver a presentation based on relevant scientific literature and following best practices in scientific communication, and
- provide a critical overview of a central figure within cognitive neuroscience and their scientific contribution to the field.

As such, the course is designed to give students practical experience of various aspects of a scientific conference.

4 Forms of Teaching
The teaching comprises lectures and seminars.

The teaching is conducted in English.

5 Examination
The course is graded A (Excellent), B (Very good), C (Good), D (Satisfactory), E (Sufficient) or F (Fail).

Registration of examination results:

<table>
<thead>
<tr>
<th>Name of examination</th>
<th>Credits</th>
<th>Grading</th>

<tr>
<td>Oral presentation(^1,,^2)</td>
<td>6</td>
<td>A/B/C/D/E/F</td>
</tr>
</tbody>
</table>

\(^1\) Determines the final grade of the course.
\(^2\) Presented in a seminar.

Students with a permanent disability who have been approved for special educational support may be offered adapted or alternative examinations.

6 Admission Requirements
Admission to the course requires passed courses worth 30 credits in the main field of cognitive neuroscience, including the courses KU135G Psychology from a Cognitive Neuroscience Perspective G1N, KU136G Basic Neuroscience G1N and KU134G Altered States of Consciousness G1N (or equivalent).
7 **Subject, Main Field of Study and Disciplinary Domain**

The course forms a part of the academic subject area of Cognitive Neuroscience. The course is a part of the main field of study in Cognitive Neuroscience at the University of Skövde. The disciplinary domain of the course is Natural Sciences.

Every course at the University of Skövde belongs to a *subject*. The division of subjects is used for follow-up and quality assurance. A *main field of study* is an area in which a degree can be awarded. *Disciplinary domain* is a division which is used by the government for the allocation of resources for studies at basic level and advanced level.

8 **Approval of Course and Course Syllabus**

The course was approved by the Curriculum Committee for Bioscience on 26 March 2020. This course syllabus was approved by the Curriculum Committee for Bioscience on 26 March 2020. It is valid from 1 January 2021.

9 **Overlapping with Another Course**

This course cannot constitute a part of a degree also containing a course the content of which is totally or partly equivalent to the content of this course.

10 **Additional Information**

Further information will be available on the university’s website before a course is given.

National and local regulations for higher education are available on the university’s website.

Upon completion of the course there will be a follow-up. The main purpose of this follow-up is to contribute to improvements of the course. The students’ experiences and views constitute one of the criteria for the follow-up and are gathered by means of course evaluations. The students will be informed of the results of the follow-up and any decisions regarding actions that are to be taken.

11 **Course Literature and Other Educational Materials**

Scientific articles and other relevant materials may be added according to the teacher’s instructions.
