COURSE SYLLABUS

Kunskaps- och innovationshantering G1F
Knowledge and Innovation Management (KIM) G1F
7.5 credits

Course Code: IE327G
The Course Syllabus is valid from: 1 July 2018
Date of Approval: 4 December 2018
Version Number: 2

1 Name, Scope and Level of the Course
The course is provided by the University of Skövde and is named Knowledge and Innovation Management (KIM) G1F. It comprises 7.5 credits and is on basic level. The level of progression of the course is G1F.

2 Objectives
After completed course the student should be able to:

Knowledge and understanding
- have a broad understanding of theories and concepts that are related to knowledge and innovation management and needed to address current and future challenges at the strategic level.
- have an understanding of the interconnections between knowledge management and innovation management at the corporate/business or functional level.
- exhibit basic knowledge of a scientific approach to knowledge and innovation management.

Skills and abilities
- demonstrate an ability to apply theories and concepts when dealing with knowledge and innovation management related challenges at the strategic level verbally and in writing.
- learn how to critically analyze and solve KIM-related problems.

Judgement and approach
- demonstrate an ability to express and defend his/her opinions or solutions in the presence of other students.
- show an ability not only to communicate and defend one’s own opinions and solutions but also to critically reflect on the contributions of the fellow students and to incorporate them into own line of argumentation.

3 Course Content
The course aims to equip students with an understanding of the main issues in knowledge and innovation management, an awareness of the key features of success, and an appreciation of the relevant skills needed to manage knowledge and innovation.
In order to do so, this course will discuss the foundational concepts that are at the heart of knowledge and innovation management. It will be studied from both external industry (society) and internal organization perspectives. Different approaches to knowledge and innovation management are discussed leveraging examples and cases in different types of organizations. The course will also cover more recent topics such as open innovation and sustainability-led innovations.

As part of the course, students will have the opportunity to become familiar with case studies and/or research papers related to the topic.

4 Forms of Teaching
The teaching comprises lectures, group assignments, supervision and seminars/group discussions.
The teaching is conducted in English.

5 Examination
The course is graded VG (Pass with distinction), G (Pass) or U (Fail).

1 Determines the final grade of the course.

Students with a permanent disability who have been approved for special educational support may be offered adapted or alternative examinations.

6 Admission Requirements
Prerequisite courses for this course are: Passed courses: FÖ114G-Organization and Management I G1N (or the equivalent).

7 Subject, Main Field of Study and Disciplinary Domain
The course forms a part of the academic subject area of Industrial Management. The course is not a part of any main field of study at the University of Skövde. The disciplinary domain of the course is Social Sciences.

Every course at the University of Skövde belongs to a subject. The division of subjects is used for follow-up and quality assurance. A main field of study is an area in which a degree can be awarded. Disciplinary domain is a division which is used by the government for the allocation of resources for studies at basic level and advanced level.

8 Approval of Course and Course Syllabus
The course was approved by the Curriculum Committee for Business on 8 March 2018. This course syllabus was approved by the Curriculum Committee for Business on 4 December 2018. It is valid from 1 July 2018 and replaces the course syllabus approved 8 March 2018.

9 Overlapping with Another Course
This course cannot constitute a part of a degree also containing a course the content of which is totally or partly equivalent to the content of this course.

10 Additional Information
The credits for this course may be transferred to the main field Business Administration.

Further information will be available on the university’s website before a course is given.

National and local regulations for higher education are available on the university’s website.

Upon completion of the course there will be a follow-up. The main purpose of this follow-up is to contribute to improvements of the course. The students’ experiences and views constitute one of the criteria for the follow-up and are gathered by means of course evaluations. The students will be informed of the results of the follow-up and any decisions regarding actions that are to be taken.

11 Course Literature and Other Educational Materials

Selection of scientific papers addressing relevant KIM-related issues to be discussed in the course.
