Aktuella trenden i informationssystem G2F
Current Themes in Information Systems G2F
7.5 credits

1 Name, Scope and Level of the Course
The course is provided by the University of Skövde and
is named Current Themes in Information Systems G2F.
It comprises 7.5 credits and is on basic level. The level
of progression of the course is G2F.

2 Objectives
After completed course the student should be able to:

- analyze and discuss current research articles in
  Information Systems,
- analyze and discuss future research questions in
  Information Systems,
- independently search current research literature,
  formulate and argue for relevance in research
  problems in the field, and
- verbally and in writing present a scientific rese-
  arch question as well as suitable research met-
  hods for answering the scientific question.

3 Course Content
The course consists of two parts. The first part intro-
duces current themes and research areas within Infor-
mation Systems. The second part consists of writing an
assignment based on one of the themes of the course.

4 Forms of Teaching
The teaching comprises lectures and seminars/group
discussions.

The teaching is conducted in English.

5 Examination
The course is graded A (Excellent), B (Very good), C
(Good), D (Satisfactory), E (Sufficient) or F (Fail).

Registraation of examination results:

Students with a permanent disability who have been
approved for special educational support may be off-
red adapted or alternative examinations.

6 Admission Requirements
Prerequisite courses for this course are: Passed cour-
ses: IT360G-Applied Project Information Systems De-
velopment G1F and IT318G-Data Warehousing - Tech-
nologies and Methods G1F (or the equivalent).

7 Subject, Main Field of Study and Disciplinary
Domain
The course forms a part of the academic subject area
of Informatics. The course is a part of the main field
of study in Informatics at the University of Skövde. The
disciplinary domain of the course is Technology.

Every course at the University of Skövde belongs to
a subject. The division of subjects is used for follow-
up and quality assurance. A main field of study is an
area in which a degree can be awarded. Disciplinary
domain is a division which is used by the government
for the allocation of resources for studies at basic level
and advanced level.
8 Approval of Course and Course Syllabus
The course was established by the Curriculum Committee for Informatics on 8 February 2018. This course syllabus was ratified by the Curriculum Committee for Informatics on 8 February 2018. It is valid from 1 July 2018.

9 Overlapping with Another Course
This course cannot constitute a part of a degree also containing a course the content of which is totally or partly equivalent to the content of this course, e.g. Enterprise Information Management G2F 15 credits

10 Additional Information
Further information will be available on the university’s website before a course is given.

11 Course Literature and Other Educational Materials
Articles presented on the course’s website, as well as articles that the student independently seeks within the scope of the course.

National and local regulations for higher education are available on the university’s website.

Upon completion of the course there will be a follow-up. The main purpose of this follow-up is to contribute to improvements of the course. The students’ experiences and views constitute one of the criteria for the follow-up and are gathered by means of course evaluations. The students will be informed of the results of the follow-up and any decisions regarding actions that are to be taken.
